Packaging of Survey	3
SITE SELECTION	3
City Retrofit Programs	3
Selection of Cities and Unincorporated Areas	5
Selection of Census Tracts	11
Selection of Homes	11
SURVEY PROCEDURES	12
Alameda Pre-Survey	12
Survey Mail-Out and Response Rates	14
Survey Procedures After Mail-Out	16
RESPONSE RATES	17
By Jurisdiction	17
By Census Tract	18
Response Rate Skewing	23
TOTAL SAMPLE RESULTS	23
Retrofitting Definition	23
Structural Measures	26
Demographics and Other Respondent Characteristics	27
Open-Ended Comments	23
OVERALL RETROFIT RESULTS	36
Acted to at Least Partially Retrofit Results	38
Results of Partial and Reasonably Complete Retrofits	43
Statistical Tests	44
RESULTS OF CITIES VERSUS UNINCORPORATED AREAS	46
Structural and Nonstructural Measures	46
Influencing Variables	49
RESULTS OF DIFFERENCES AMONG CITIES	49
Structural Measures	49
Educational Attainment	60
Household Income	66
Responses to Survey Questions by City	67
Reasons Structural Work Done or Not Done	74
Statistical Tests	76
EFFECTIVENESS OF BERKELEY AND SAN LEANDRO'S RETROFIT PROGRAMS	78
Overview of Data	78
Berkeley, San Leandro, and Alameda Retrofit Comparison	78
Time After Purchase Until Retrofitted	80
Program Effectiveness Conclusions	81
CONCLUSIONS	82
Factors Most Influencing Retrofit	82
Reasons Structural Work Done or Not Done	82
Designing a Model Retrofit Program for a City/County	83
TRANSFERABILITY	84
ATTACHMENTS	85
